

MNR Exports Pvt Ltd

## **NEEDLE POLICY**

MNR Exports has established a policy for controlling the unintended handling of broken needles in the factory.

The policy includes:

- The issue of needles is by individual machines with documentation support against submission of the respective broken needles.
- Spare needles are not issued to stitching employees in any circumstances.
- All broken needle spare parts are stored inside a controlled sealed box and also tagged in the needle register.
- Disposal of all needles shall be done annually under supervision through dumping inside deep earth pit.
- Needle register is updated at regular intervals.

A handwritten signature in blue ink that reads 'Nilesh Doshi'.
